🏠 Amazon Web Services 📅 09/2018 - 09/2020 📄 [KZMW4WL21B44QN94](#)

LPIC-OT DevOps Tools Engineer

🏠 Linux Professional Institute 📅 09/2018 - 09/2023 📄 [LPI000397664](#)

Zend Certified PHP Engineer

🏠 Zend Technologies 📅 02/2016 - ∞ 📄 [ZEND026303](#)

LPIC1 – Linux Professional Institute Certified – Level 1

🏠 Linux Professional Institute 📅 03/2012 - ∞ 📄 [LPI000397664](#)

Technical Skills

Open Source

PHP Documentation

Participo do [time oficial de tradutores](#) da documentação do PHP. Para garantir que todos tivessem acesso a criar merge requests no repositório oficial, criamos um [repositório](#) no Github que faz a ponte entre os repositórios. Para ver a lista de minhas contribuições, acesse a página de [status da documentação](#).

Imagens Docker

All available resources are available in [DockerHub](#). Only those with most relevance are listed here.

Name	Description	Documentation
🐳 alpine-asciidoctor-helper	A Docker image for using the AsciiDoctor toolchain to process AsciiDoc content	📄 alpine-asciidoctor-helper
🐳 alpine-sonarqube-scanner	A Docker image to execute SonarQune in a project	📄 alpine-sonarqube-scanner
🐳 alpine-gitflow-helper	Docker container to manage git branches with Gitflow	📄 alpine-gitflow-helper

Name	Description	Documentation
alpine-liquibase-helper	Docker container to manage liquibase oriented databases	alpine-liquibase-helper
jenkins-jnlp-slave	Docker image for jenkins jnlp agents	jenkins-jnlp-slave

Terraform Scripts

All available resources are available in [registrator official](#). Only those with most relevance are listed here.

Name	Description	Documentation
terraform-aws-devops-nexus	Terraform module to provision a Sonatype Nexus on AWS	terraform-aws-devops-nexus
terraform-aws-devops-vpc	Terraform module to provision a VPC on AWS	terraform-aws-devops-vpc
terraform-aws-devops-selenium	Terraform module to provision a selenium hub cluster on AWS	terraform-aws-devops-selenium

Ansible Galaxy Roles

All available resources are available in [Ansible Galaxy](#). Only those with most relevance are listed here.

Name	Description	Documentation
ansible-role-elasticsearch	Ansible role to deploy Elasticsearch on Docker Swarm Cluster	ansible-role-elasticsearch
ansible-role-gitlab	Ansible role to deploy Gitlab in a Swarm	ansible-role-gitlab
ansible-role-portainer	Ansible role to deploy Portainer	ansible-role-portainer
ansible-playbooks	Ansible role to deploy Selenium HUB to Docker Swarm	ansible-playbooks
ansible-role-sonarqube	Ansible role to deploy SonarQube	ansible-role-sonarqube

Packer

Name	Description	Documentation
packer-ubuntu-1804	Packer script to ubuntu 18.04	

Work Experiences
